

### Orion Financial Deposit Management Program Institution Exclusions

You may select Program Institutions to exclude from receiving the deposits you place in your Account by placing them on your Exclusions List. To add a depository institution to your Exclusions List, enter the institution’s information below. For the City and State, enter the city and state of the institution’s headquarters or main office, not your local branch. If you do not wish to exclude any Program Institutions, leave the entries blank. You may add or remove Program Institutions from your exclusions list at any point in the future by contacting Orion Financial directly. Routing numbers can often be found on the institution’s checks or website.
